

alfateks

Alfateks Tekstil San. Tic. A.Ş.

Alfateks Shirt was founded in 2013 by the 4th generation of a family of fabric manufacturers in Istanbul.

Although still young, Alfateks specializing in men's shirt manufacturing has come a long way and now is working for local and international trend setting brands. To name a few, LC Waikiki, and Mavi Jeans locally, Mustang Jeans and Reserved internationally.

Our in-house model workshop allows us to produce customers protos, sms, size sets and pps and also to renew our shirt collection periodically every month. Access to a large fabric collection is also important for our collections success in working with key brands.

Working with subcontractors with capacity of 200.000-250.000 pcs monthly that are audited on a regular basis and have global industry compliance standards such as SEDEX and BSCI assures customer satisfaction.

Our **'shirt- express'** service option allows customers the freedom of quantity together with fast delivery while offering many model and fabric options.

Alfateks distinguishes as a company by the importance given to high quality production with effective price strategy. Fast lead-time and priority of customer needs also creates easy and satisfactory results.
