

Alfateks Shirt Company was founded in 2013 by the latest generation of a family with a longstanding tradition in fabric production. The company was established under the umbrella of Alfateks Fabric Company in Istanbul.

Utilizing the experience it inherited from the past, Alfateks quickly became a leading producer of men's and women's shirts for major trend-setting brands, both domestically and internationally.

The company fulfills customer pre-production needs, including prototypes, SMS, size sets, and PPS in its in-house model workshop, while continuously producing and showcasing updated collections.

In addition to its high-quantity production capabilities, Alfateks also offers low-quantity production using ready fabrics, enabling it to meet diverse demands and swiftly manufacture orders for fast-track shipping.

Operating in facilities that meet international standards, Alfateks is committed to producing competitively priced, high-quality products on its journey towards success.
